

Bodhi Tree Wines

Energy - infused

Offering peace and enlightenment, the Bodhi Tree is emblematic of the tranquility which surrounds our vines and the harmonic process used to transform the abundant harvest into a wine which will truly awaken the senses.

The heart shaped leaves are a symbol of the love, light and life enriching qualities infused into each drop, capturing the very essence of our blissful backyard.

We've walked lightly on the soil and carefully brushed past the vines and it is this blend of nurturing with love and gentleness, together with our philosophy of exploring and integrating natural energy and eco-principles where possible, which produces a wine of natural equilibrium.
